

VITALSIGN

APS-1 ADJUSTABLE POLE STAND

For VitalSign Series Tablets

The APS-1 is an adjustable pole stand for the VitalSign Temperature-Check Tablet Series. Do not use this product for any purpose not explicitly specified by One Diversified, LLC. The 25-pound weighted base assures its stability. Improper installation may cause property damage or personal injury. If you do not understand these directions, or have doubts about the safety of the installation, contact Diversified Network Operations Center or submit a support request through the Diversified VitalSign Support Portal. Diversified is not liable for damage or injury caused by incorrect mounting, assembly, or use.

You can adjust the height of the stand from 45" to 76" by twisting the barrel in the middle of the column and extending to the top.

The APS-1 package includes the column base and monitor column, as well as several screws for mounting auxiliary devices.
