

VITALSIGN

DTS-1 ADJUSTABLE DESKTOP MOUNT

For VitalSign Series Tablets

The DTS-1 is an adjustable desktop mount for the VitalSign Temperature-Check Series Tablets. It can tilt up or down, making alignment with a person easy. Improper installation may cause property damage or personal injury. If you do not understand these directions, or have doubts about the safety of the installation, contact Diversified Network Operations Center or submit a support request through the Diversified VitalSign Support Portal. Diversified is not liable for damage or injury caused by incorrect mounting, assembly, or use.

You can adjust the height of the tablet by bending the joints where the standing piece connects to the base. To adjust the angle, tilt the VESA mount.

The DTS-1 model comes assembled. Once you receive it, simply mount your VitalSign Tablet to the VESA mount using the included screws.

DTS-1
